

“Bloodthirsty Rats and Daggers grabs you by the throat”
Never Mind The Hype

“The other bands play punk; they *are* punk”
3voor12Leiden

A POWERTRIO in search of the razor sharp edge between heavy and punk. Inspired by the rough emotions of IDLES, the sex-appeal of Queens of the Stone Age and the total disorder of Amyl & the Sniffers, they'll blow you away with a wall of sound. They already played at Booster festival and in 2022 they will play at Valkhof Festival and the Popronde and release their first EP. A subterfuge for everyone who wants to escape the daily grind. Sincere punk, straight from the tips of toes, sure to stir everyone in the room.
